Budget Of Other Timely Topics From Our Special Correspondent

(Special Correspondence.)

Exeter, N. H., August 28.

At the Gale headquarters today the Herald representative found the general and his manager, Col. Thomas N. Walker, in the most seemly confidential mood. They were in a most cheerful air on the success which Mr. Gale is having in the small towns, which were supposed to be easy for Batchelder, in the northern part of the state. One of these towns which Gale has carried is Canterbury, a town in Merrimac county, situated within a few miles of Batchelder's home and as Mr. Gale had made no attempts to get the two delegates from that town the news came as an agreeable surprise. This is only one of the small towns which is composed largely of people who are members of the grange, which is lining up for Gale.

A new custom will be inaugurated on Labor day here this year, when the stores will close all day. These merchants have signified their intentions of not opening their stores on that day: F. W. Ordway and company, Dr. Sanborn and company, Thomas Smith, E. E. Rowell, O. H. Sleeper, Charles G. Sheldon, Walter E. Burth, N. S. Walker, the Fair, E. A. Buck and company, Augustus Young, Hillard and Kimball, George A. Carlisle, Arthur H. Sawyer, Winnie L. Purrington, Zelig London, Charles Russell and company, Goodwin Brothers, Edwin S. Thuyng, Collishaw and Page, W. P. Bartlett and company, Charles E. Smith, Currier and Default, George L. Swain and Fred Batchelder.

Hampton Beach merchants and hotel proprietors are now preparing for the final week of the beach season and the one of the most importance. The New Hampshire Knights go into encampment tomorrow and the Mystic Shrines begin their outing. If Sunday and Monday are pleasant there will be an enormous crowd at the seashore.

Hoyt hall, the academy's new dormitory, begins to take on looks which tell something of the lower stories when finished. The masons have finished laying the bricks of the second story on the Spring street side, and they are rapidly approaching that story on the other sides. Alumni hall is being pushed forward rapidly, when the number of brick masons employed is taken into consideration.

Tomorrow afternoon the finals in the handicap tournament of the Exeter Golf club will be played on the Judd Hill links. There are two prizes, first and consolation prizes. Both are silver cups.

This evening at Convention hall, Hampton Beach, the Exeter, Hampton and Amesbury Street Railway Relief society will give its third annual concert and ball. Music will be furnished by the Pentucket orchestra of Haverhill, Mass.

The republicans of Hampton will hold their caucus this evening.

Mahlon F. Proctor, who is connected with the New England Telephone and Telegraph company, is spending a vacation in Exeter.

Mr. and Mrs. Abraham Smith of Newport, Me., are visiting Mr. and Mrs. Charles E. Smith.

At present there are eight prisoners confined in the Exeter jail.

A son was born today to Mr. and Mrs. Walter A. Morse.

Harry A. Johnson of Haverhill, is visiting his parents, Mr. and Mrs. Charles L. Johnson.

The sewer on High street is being extended.

The rails for the Newmarket branch of the Portsmouth and Exeter street railway were received yesterday.

Owing to the high price of anthracite coal the school board has decided that when it becomes necessary to start fires at the school hard wood will be used. This will be continued until

Thanksgiving, or January possibly soft coal or coke will then be used for fuel.

Mrs. George F. Lord and two daughters left yesterday for Wells beach.

Traffic is very heavy on the Boston and Maine road and the 2:46 train is run in two sections every afternoon.

Franklin Seiter Frisbee of Boston, treasurer of the New Hampshire society of the Cincinnati, today has sent to all the guests who were present at the annual banquet here on July 4, and to the public library, copies of the ivory miniatures of General and Mrs. George Washington, painted by John Trumbull, each being accompanied by a piece of the original thread used by Martha Washington from the colonial spoons given by her to Col. John Trumbull.

A number from Exeter will attend the grand chapter meeting of the Order of the Eastern Star, which is to be held at Lancaster on Tuesday and Wednesday of next week.

Today was the "big" day at the Heding campground, and Exeter sent numerous attendants.

Mr. and Mrs. George F. Richards left this afternoon to spend a day at Gray's Inn, Jackson.

KITTERY.

Kittery, Me., August 28.

Miss Minu Maby of Hilo, Hawaii, is visiting in Kittery. She is the guest of her brother, F. W. Maby.

E. J. Chaney, landlord of the Ormear house, who has been ill nearly all summer, has gone to Wilton, Me., for rest and recuperation.

The members of Whipple lodge of Good Templars will attend morning service at the Second Methodist church on Sunday, in a body.

All stores and places of business will be closed from one o'clock until four this Friday afternoon, during the funeral of James O. Trefethen.

Mrs. Fred Brooks and Master Hawley Brooks returned on Thursday to their home in Syracuse, N. Y., after a visit of several weeks to Mrs. S. A. Brooks in this village.

Mr. and Mrs. George Newson entertained about fifteen of their friends at their home on Wednesday evening. A graphophone concert was enjoyed and Miss Lou Newson rendered several selections on the mandolin. Cake, ices and other refreshments were served.

A good attendance is expected at the republican rally which is to be held in Wentworth hall, this (Friday) evening.

Several Kittery families have decided to burn soft coal this season if hard coal continues to sell at the present high prices.

KITTERY POINT.

Kittery Point, Me., August 28.

The passing to and fro of the large and handsome battleships of the navy, which were guarding the coast last week, attracted much attention here. It was hoped that the invading squadron would make an attempt to get into our harbor so that our residents might see a "battle" between these fighting monsters.

Mrs. H. Gilbert Cassidy, two children and maid, who have been passing the summer at the Parkfield, returned Wednesday to their home in Germantown, Pa.

W. H. Tolpy of Roxbury, Mass., who has been visiting his parents, Mr. and Mrs. J. A. Tobey, has returned home. While here, Mr. Tobey attended the wedding of his brother, Addison F. Tobey.

Mr. and Mrs. C. J. Perry, Miss Florence Perry and Roy and Albert Perry have returned to their home in West Medford, Mass., after an extended visit to Mrs. Albert Fernald.

Mr. and Mrs. H. W. Bartlett who have been boarding at Mrs. Johnson's, returned to their home in Flushing, N. Y., today.

The Champernowne will not close until September 20.

The Freehill Baptist and Christian churches had a union picnic at the Willows, York Beach, on Thursday.

The steamer Sam Butterfield, which used to ply to Kittery Point and Portsmouth, now lies at anchor in Pepperrell cove.

The party that has been camping at Sea Point broke camp on Wednesday after a delightful outing at one of the most beautiful spots hereabouts.

Many of the local farmers are cutting a good second crop of hay.

The way in which the grocery store of T. Clarkson & Son has been fitted up and beautified this summer, deserves more than a passing glance. New show cases and paint have transformed the store into an up-to-date

TO CHRISTEN CRUISER.

Miss Elsie Macombe of Des Moines will christen the cruiser Des Moines at Boston this coming September. Gov. Cummins of Iowa, and his staff will be present at the launching. The young woman who will preside over the happy event is one of the most beautiful girls in the state of Iowa. She is famous as a society belle and has spent much time in travel.

BIG APPLE YIELD.

The apple growing interests in this section are very great. Wherever one goes he sees orchards in abundance, the trees bearing goodly burdens of fruit. It is evident there will be the biggest yield for years hereabouts and the fruit will be of good quality. According to the estimates of the National Shippers association this is to be a big apple year for this country, the crop being estimated at 40,000,000 barrels—the largest crop since 1896, when 69,000,000 barrels were gathered.

Prosperity by itself never made any man happy.

If you don't know how to handle your gun you will be beaten by a man with a club.

The job that is easy to do isn't very well worth doing.

If you haven't got it in you to feel proud of the times when you work, I think very little of you.

I believe in play, but don't make a business of it.

The best constitution will avail nothing if you haven't the right type of citizenship to take advantage of it.

It is not an easy thing to get a law that shall do us great benefit, but it is only too easy to get a law that shall do us great harm.

Let us resolutely refuse to use the knife that will be less dangerous for the disease than the sufferer!

The milletum is a good way off yet.

In the long run the most unpleasant truth is a sadder companion than a pleasant falsehood.

About all we have a right to expect from government is that it will see that the cards are not stacked, and if it sees to that when we will abide by the deal.

ARMY ORDERS.

Captain Chauncey R. Baker, quartermaster, will proceed to Omaha, Neb., for duty.

Leave for two months is granted Captain Archibald Campbell, Artillery Corps.

Captain Odus C. Horney, ordnance department, will proceed to the several forts in the maneuver district on official business pertaining to the application of new appliances to firing mechanism of the guns and mortars mounted at those forts.

Captain Julius T. Conrad, 3d Cavalry, is detailed as professor of military science and tactics at the Pennsylvania Military College, Chester, Pa.

Leave for four months is granted Veterinaryian Samuel L. Gelston, 3d Cavalry.

Leave for three months is granted Captain Edgar W. Howe, 22d Infantry.

Bodily pain loses its terror if you've a bottle of Dr. Thomas' Electric Oil in the house. Instant relief in cases of burns, cuts, sprains, accidents of any sort.

MOVEMENTS OF NAVAL VESSELS.

Arrived—Chesapeake at Annapolis, Mohican at Bremerton; Bagley, Thornton Stockton and Barney at Newport. Sailed—Glacier, Sydney for Townsville; Puritan, New Bedford for New London; Isla de Luzon, Labuan for Sarawak; Topeka, San Juan for Hampton Roads.

ON THE DIAMOND.

Pitcher Morrissey and Center Fielder Murray of the Manchesters, will leave after the game next Monday for Philadelphia, where they will join the Chicago National baseball team. "Jake" Volz, the Texas wonder, goes with the Philadelphia National league team next season.

Andy Freedman, according to Ned Hanlon, has lost \$60,000 by not having a good club in New York. The American league will be there next year.

Mike Donlin has signed a contract to let liquor alone for five years.

Varney struck out eleven men and allowed no safe hits, at Woonsocket, R. I., on Thursday, his team (the Woonsocket Gymnas) beating Willimantic 17 to 0.

Harry Ball has made a grand record with Fall River this season. He has played in every game that the team has been engaged in and is the only man in the New England league who can show this score. Manager McDermott is very proud of the excellent showing that Harry has made.

In Brown and Stackpole, the Providence team has two crack twirlers who can stand the test with the best of the other artists in the profession. Both are well known here, having played with Somersworth, Dover and other teams hereabouts in past seasons, and followers of the game in this vicinity will watch closely the work of these players during the remainder of the season.

CAUGHT A MONSTER EEL.

Epping, Aug. 28.—Dr. A. W. Mitchell's son, Karl, a lad of ten years, enjoyed yesterday what to the small boy was rare sport. While fishing on the bank of the river, he felt a vigorous tugging on the hook, and he began pulling in his line, to which operation there was strong opposition. It required about all the strength Master Karl could command, but after hook and line were nearly out of commission he succeeded in landing an eel two feet eleven inches long.

As may be imagined, there was a sensation and a gathering of boys from all parts of the village to see the captive.

PLATFORM COMMITTEE.

Henry F. Hollis, chairman of the Democratic state committee, has selected the following named gentlemen as the platform committee to report to the state convention. Rockingham, John H. Dowd, Portsmouth; Strafford, Frederick E. Small, Rochester; Belknap, Charles P. Sargent; Lower Gilman, Carroll, John B. Nash, Center Conway; Merrimack, Clarence E. Carr, Andover; Hillsborough, Nathan C. Jameson, Antrim; Cheshire, John C. Colby, Keene; Sullivan, Hosea W. Parker, Claremont; Grafton, Samuel B. Page, Wadsworth; Coos, Henry O. Kent, Lancaster.

STRATHAM'S FLOWER FESTIVAL.

The ninth annual flower festival and aster show of the Congregational society of Stratham, an event of interest in all neighboring towns, was successfully held Thursday afternoon and evening in the Stratham town hall. The display was large and beautiful.

In the evening a pleasing entertainment was given. Mrs. A. L. Howland of Lynn contributed piano solos, and Alvin M. Vroom of Exeter gave bass solos.

Serofula, salt rheum, crysipelias and other distressing eruptive diseases yield quickly and permanently to the cleansing, purifying power of Burdock Blood Bitters.

A TROLLEY RIDE

Over the new line FROM

PORTSMOUTH TO EXETER

Portsmouth Electric Railway

Time Table in Effect Daily, Commencing June 16, 1902

Main Line.

Leave Market Square for Rye Beach, Little Boars Head and Hampton Beach, connecting for Salisbury Beach, Exeter and Newburyport at 7:05 a. m., 8:05, 9:35, and half hourly until 9:45 p. m.; Saturdays only 10:05 a. m. and 11:15 additional. For Cable Road only 8:30 a. m. and 9:35 a. m. For Little Boars Head only 10:05 a. m., 11:05, 11:35, 1:15 p. m., 2:35, 4:45, 5:35, 5:55 a. m. make close connections for North Hampton.

Returning—Leave Junction with E. H. & A. St. Ry. at 8:00 a. m., 9:05, 9:35 and half hourly until 10:05 p. m.; Saturdays only 11:05 a. m., and Sundays only at 12:05 a. m. additional. Leave Cable Road at 8:10 a. m. and 7:30 a. m. Leave Little Boars Head at 10:55 p. m.

Plains Loop.

Up Middle street and up Islington street—Leave Market Square at 6:35 a. m., 7:05, 7:35 and half hourly until 10:05 p. m., 10:35, 11:05.

Christian Shore Loop.

Up Islington street and down Market street—Leave Market Square at 6:35 a. m., 7:05, 7:35 and half hourly until 10:05 p. m., 10:35, 11:05.

*Omitted Sundays.

**Omitted holidays.

†Omitted Saturdays.

on the Market.

DO DOGS REASON?

John Blank the librarian at Lundun was talking about animal stories and the growing interest in that line of literature, despite the preposterousness of some of the tales and the almost impossible things credited by authors to horses, dogs and other animals, when I related to him what, as a boy, I had seen an uneducated farm horse do. The old horse had pushed the barn door open and walked out. The door, being out of plumb at the hinges, swung against the side of the barn. The horse turned about, looked his feed-trough over the edge of the door, shamed in sin, and started to walk away, but he had closed the door with so much force that it bounded open, though not so wide as before. Then he stopped, turned about again, and closed it not quite so hard. This time the rebound threw it open about ten inches. The horse looked at it for five or ten seconds, and then nosed it up again very softly. It remained and the horse walked off. When midway in the barn lot, he stopped, looked in the direction of the barn, and then went to the water trough and took a long drink.

"Three months ago," said Mr. Blank, "a neighbor of mine died. At the house they kept a very ordinary dog, which my neighbor had never made much of; but, being a kind, good-natured man, he had never abused him. After my neighbor's death this old dog would take his place on the walk outside the gate to meet his master, who had always reached home after a certain hour. The family noticed the dog's actions, but not one of the members could remember having ever before seen him watch for his master. "Yesterday I called at their home and found a stranger there. The old dog trotted across the room, but stopped when he heard the stranger's voice. He looked at me and I spoke to him.

"The stranger spoke again and the dog turned and faced him. The man had not paid the slightest attention to the dog, but the animal's actions were so unusual that I could not take my eyes from him.

"The old fellow tilted his head to one side, took a few steps forward, and then sat in front of the man and gazed into his face.

"Next, he put his front feet on the man's knees and listened intently, while the man, heedless of the dog's familiarity, talked to me. He climbed into the man's lap and looked up at his face. Then he stood on his hind feet, put a paw on each of the man's shoulders, and gazed into his eyes.

"It may have been only my imagination, but it seemed to me that I had never before seen such a troubled, puzzled look in an animal's eyes as that dog wore as he stared into the man's face and tried to reason it out."

"What was the cause of his behavior?" I asked.

"The stranger," said Mr. Blank, "was the dead man's brother, whom the dog till that day had never seen."—Success.

WEEKLY CROP BULLETIN.

For the Week Ending August 25, 1902.

All things considered the week past may be called generally favorable to farming operations and crop growth. The rains and high winds of the latter part of the week retarded work somewhat, but caused no appreciable damage to crops. There was an average amount of sunshine, but the temperatures were too low to favor the root growth.

Temperature—Throughout the district the temperatures were generally below the normal, with minimum low enough for frost in some localities and the weather conditions been favorable for its formation. The mean temperature for 30 years at Boston, for the week ending August 24th, is 73.6 degrees. The highest mean for the corresponding week is 73.1 degrees in 1890, the lowest, 59.0 degrees in 1885. The mean for the week in 1902 is 63.2 degrees, or 12 degrees below the 30 year normal. The mean temperature for the weather bureau stations mentioned below is 62.3 degrees, or 5.7 degrees below that of 1900.

The weekly mean temperatures at the weather bureau stations throughout New England are: Eastport, 68 degrees; Portland, 62 degrees; Northfield, 58 degrees; Boston, 64 degrees; Nantucket, 61 degrees; Block Island, 66 degrees; Albany, N. Y., 61 degrees.

Precipitation—With the exception of the southern half of the section an average amount of precipitation occurred at most points. The rain of the 24th was accompanied by severe thunder and lightning, and, in some places, by hail.

The weekly amounts, in inches and hundredths, at the stations of the weather bureau were: Eastport, 1.50; Portland, 0.70; Northfield, 0.70; Boston, 0.40; Nantucket, 0.65; Block Island, 0.20; Albany, N. Y., 0.90.

The crop situation remains practically unchanged, nearly everything

having made about normal progress. In many respects the season is backward and any sort of a harvest or some crops is dependent upon a warm September and a late occurrence of autumn frosts. In the northern portion of the section work was delayed by late weather, but in the southeastern portion more rain is needed as springs and wells are getting low, the ground hard and dry, and pasture feed short.

Grain—if frosts hold off and the other weather conditions are favorable there will probably be a better corn crop in the southern half of the section than was promised earlier in the season. The yield will not, however, be up to the average, and elsewhere it will be very light; in some localities the crop being almost a total failure. Some oats that were badly lodged were from necessity cut for fodder, but the crop, as a whole, has yielded well, the returns from threshing being very satisfactory.

Grass—Where not completed the harvesting of the hay crop has progressed as rapidly as the weather conditions would permit. Considerable grass remains uncut in the north, lowlands being still so wet that teams cannot get on them. Some rye has been cut and there is a good yield reported except where set back by drought.

The fact that Mr. Cleveland goes on calmly fishing while Mr. Watterson continues to hurl editorial anathemas at him occasions no surprise. Every man to his own trade.

The president's expressions of dis-

gust with southern republican politics, which apparently exist solely for the patronage involved, have been heartily approved by everyone familiar with the southern regime. An indication of what southern republican policies are,

is seen at every national convention. At the Philadelphia convention which renominated McKinley several sessions of the national committee were consumed in passing upon the "regularity" of the various southern delegations.

Fruit—Peaches and pears are reported as rotting somewhat, but a fair crop of the former is assured, with the yield of pears uneven. The majority of the New England correspondents still report that the yield of apples will be about the average in most localities and above in some. Except at some few points the winter varieties do not promise well, especially Baldwins. Reports from the cranberry-raising districts indicate that while the yield from some bogs will be light, yet that the total crop will be up, if not slightly above, the average. Picking was begun during the week on some bogs where the berries were in proper condition, and the results were satisfactory. The shrinkage from early estimates of a phenomenal crop is attributed to the frost the latter part of May, which injured some beds, while on others the water was allowed to stay too long.

Vegetables—it is now probably a well-decided fact that squashes, cucumbers, and melons will yield far below the average. Root crops are doing well, except that there is some com-

plaint that blight has appeared in some onion fields, and that in others there has been an extra rank growth of vines at the expense of the bottoms. Potatoes are yielding well and are of good quality. While reports of blight and rot are frequent, it is thought that no serious damage will result to the early varieties, that to the late-planted ones cannot now be estimated with any degree of certainty.

The Successful Hostess

SHE is one in a thousand," said the young matron ap-
proachingly.

"What do you consider the chief requisite?" asked the engaged girl, with an eye to the future.

The young matron laughed. "Tact in the first place, tact in the second place, tact in the third place," she said.

"Oh, I suppose that means not bringing the wrong people together and saying the right thing at the right time! There is one woman I know who certainly can't do that. A guest of hers stepped up to make her adieu and say what a pleasant time she had had, and what do you suppose the blundering creature remarked complacently? 'Yes, I thought you would be glad to meet some nice people!' Fancy! You never could persuade the other woman that she didn't mean it maliciously, and she never put her foot in that house again."

"That's what happens to the woman who tries to entertain and makes a bad business of it. She sows her path in life with enemies instead of friends."

"When Jack and I are married," said the engaged girl, blushing, "we're just going to take a small house a bit out of town, so we can't attempt anything pretentious, but our little home is going to be wide open to all our friends just the same!"

"And that's one secret of being a good hostess," interrupted the matron—"to make people feel that you are always at home to them, not merely that the house is open on certain state occasions, when ice cream and cakes are served, and that on all others it is much better for them to stay away because of the disturbance their unexpected presence might cause in the household routine. No; the successful hostess is one who makes her guests welcome, no matter what the conditions. If it is Monday morning and she is helping her one maid, she will simply run down in her little cotton gown and not even excuse herself for the fact, and in the afternoon, if a friend drops in, she will urge her to stay for dinner without making any extra ceremony of the affair. That's the kind of house where people like to

PLAIN HOUSEWORK.

THERE IS NOTHING LIKE IT AS A SYSTEM OF PHYSICAL CULTURE. Would you be healthy and beautiful? Would you have strong, rounded arms, full chest, active, well shaped lower limbs that can dance all night and not feel it? Would you have a level head and a resourceful mind, trained muscles that never fail you in emergencies, a good digestion and a brave, steady heart that will pump for you with scarcely a perceptible hastened beat even while you walk up a steep hill or run upstairs?

Yes? Then do housework—just plain, common housework.

For developing lungs and chest sweeping is prime. Playing upon a washboard increases the limberness of

the arms and wrists.

"BETTER THAN DUMBBELL PRACTICE"

the arms and wrists. It stiffens the fingers if one does too much of it, but we are not talking of too much of anything. Ironing is better than dumbbell practice. Polishing windows is better than swinging Indian clubs.

The rich man's daughter must search out devices for muscle development. For her have been invented tennis, pingpong, archery and dozens of cord and ring and bar arrangements. She is so put to it to get outdoor exercise that she must even take to hunting and galloping after hounds. The woman who does housework and gardening gets quite as healthful exercise without price and without trouble.

Nearly all country girls are healthy and comely until they get artificial notions from the city into their minds. Really and truly, in the matter of physical development and strong and independent character building, the country girl has infinite advantage over her sister of the city. Fine complexions and beautiful arms are found nearly always among women who milk cows and do dairy work. I have seen and studied girls of all stations and nations and have decided finally that the most fortunate of all are the daughters of well to do farm families in America, families in which the womenfolk do their own housework, tend flowers, ride horseback and rear chickens. A majority of the distinguished and successful feminine artists, teachers, writers, physicians and business women in the land today are from homes that gave them this noble bringing up. Those who later in life use their brains most effectively are the ones that in youth also learned to use their hands.

Though this fine country rearing is lost to the city girl, the healthful physical training of household work remains to her. Especially is she privileged in the matter of climbing stairs, which is so promotive of health in heart, lungs and muscles that running up and down stairs might almost be recommended of itself as a means to physical culture. Physicians are somewhat to blame for so much preaching of the ill effects of climbing stairs. There are none absolutely except to the confirmed invalid, and it is a genuine sign of the progress of the race that no woman except the most out of date is willing nowadays to acknowledge herself an invalid. Delicate females have gone out of fashion, for which let us be thankful.

I know a few women who pride themselves on their weak hearts, but none of them does her own housework. One eats too much, another takes no active exercise at all, while a third lies herself so tightly that she ought to be sentenced to prison for it. Not one of them gives her heart any chance. A good, strenuous course of domestic labor would cure every one of these dames of her weak heart.

I know of one woman who says kitchen work makes her ill. When she is absent from her own house, doing nothing but idle visiting, she is well, but the day she arrives home and begins her domestic duties she says she gets "kitchen backache." But this same woman also despises housework and proclaims it a "mean and sordid occupation." It is not. The meanness and sordidness are in the workers not in the occupation.

There are not a few young women, and old ones, too, who make of household labor a really aesthetic employment. They begin their tasks with joy, singing as they go. Their fine, delicate sense of cleanliness and order revels in the polished floors, shining windows, crystal pure glassware and snowy linens, which are made thus by their own strong, skillful hands. These make of housework a real fine art.

Now that medical science has attended to the "pingpong ankle" its attention might be called to the danger which some financial celebrities run of contracting the "coupon wrist."

It pays to be industrious. Senator Clark used to peddle clocks, and the late Jay Gould obtained his start by selling rattras.

Australian Business Women.

An electrical power factory, the first

in South Australia, has been es-
tablished by women. It is on the co-
operative plan, and its managers and
shareholders are all women. The guar-
antee for its success is that those at
the head of it are largely already prac-
tical and successful business women.

PRESERVING THE FORESTS.

THIS ASSOCIATION FOR THE PROTECTION OF THE ADIRONDACKS HAS ASKED THE CHAIRMAN OF BOTH THE REPUBLICAN AND DEMOCRATIC STATE COMMITTEES OF NEW YORK TO HAVE INSERTED IN THEIR PARTY PLATFORMS AT THE APPROACHING CONVENTIONS A PLANK WHICH IS SUBSTANTIALLY AS FOLLOWS:

"WE REGARD THE ADIRONDACK PARK, WITH ITS FORESTS, WATERS AND FLORA, AS ONE OF NATURE'S LEGACIES TO OUR STATE, WHICH THE DICTATES OF PRUDENCE, WISE POLITICAL POLICY AND FORESIGHT REQUIRE SHOULD BE CAREFULLY SUGARDED AND PROTECTED, NOT ONLY AS A PLEASURE GROUND, BUT AS A CONSERVATOR OF THE WATER SUPPLY FOR OUR RIVERS AND ESTUARIES. WE THEREFORE FAVOR RESUMPTION BY THE STATE OF THE PURCHASE OF LANDS WITHIN THE LIMITS OF THE ADIRONDACK PARK."

UNDoubtedly both the Republican and Democratic parties will embody this suggestion in their platforms, as it is not a political issue. It is generally conceded that the public sentiment in the state of New York is against any measure which tends to lessen the protection thrown around the state forests and that the forest reserves should be increased rather than diminished.

The association takes the attitude that agitation in this matter is particularly appropriate, inasmuch as the state of New York was the first to create a forestry commission, the first to grant money for the management of its forests and the first by legislative action to appropriate money for purchasing and enlarging its holdings of forest land. In a circular showing why the Adirondack forests should be preserved the association says:

"IT MUST BE REALIZED THAT A TREE IS NOT MERELY FOOD FOR A FACTORY, BUT THAT IT IS IN VERY TRUTH A FACTORY ITSELF—A LABORATORY FOR THE MANUFACTURE OF PURE AIR AND PURE WATER AND A STORAGE BATTERY OF CHEMICAL AND PHYSICAL ENERGY INCAPABLE FOR THE PROTECTION OF THE VARIED COMMUNITIES AND MANUFACTURING INDUSTRIES WHICH ARE THE VERY FOUNDATION OF PROPERTY. IN THE LIGHT OF SUCH REVELATIONS WE STAND AGHAST AT THE PROFLIGACY WHICH HAS CHARACTERIZED THE TREATMENT OF OUR FORESTS."

IT IS CLAIMED THAT THE CUTTING DOWN OF OUR FORESTS FURNISHES MATERIALS FOR THE USE OF LARGE CAPITAL AND MUCH LABOR. THE ARGUMENT IS A SPLENDID ONE AND SEEKS TO CONCEAL THE FACT THAT SUCH INDUSTRIES ARE DEALING A FATAL BLOW AT OTHER INTERESTS OF THE STATE EMPLOYING MANY TIMES THE AMOUNT OF CAPITAL AND NUMBER OF EMPLOYEES. THE IMPROVIDENCE OF SUCH A POLICY CARRIES WITH IT THE REASONS FOR ITS OWN CONDEMNATION.

THE IMPORTANCE OF THE ADIRONDACK PARK IN ITS RELATION TO THE SUPPLY OF WATER FOR DRINKING AND SANITARY PURPOSES FOR A LARGE SECTION OF THE STATE HAS NOT ADEQUATELY BEEN APPRECIATED. FOREST STREAMS CARRY LESS MUD AND SILT THAN OTHER STREAMS, AND THE EXCLUSION OF LARGE POPULATIONS AND MANUFACTURING INDUSTRIES FROM THE FORESTED AREA PREVENTS ARTIFICIAL POLLUTION SO COMMONLY FOUND HERE. THE FORESTS, AS CONSERVATORS OF OUR WATER SUPPLY, HAVE AN IMPORTANT RELATION TO THE SUBJECT OF FIRE INSURANCE. A PROPER SUPPLY AND PRESSURE OF WATER ARE NECESSARY SCAFFORDS FOR HUMAN LIFE AND PROPERTY."

WHAT THE EMPIRE STATE HAS DONE AND IS DOING FOR THE PRESERVATION OF THE FORESTS YET REMAINING WITHIN ITS DOMAIN MAY WELL BE FOLLOWED BY MANY OTHER COMMONWEALTHS.

THE INJUNCTION HAS BEEN INVOKED AS A REMEDY FOR PRETTY NEARLY ALL THE ILLS THE BODY POLITIC IS HEIR TO, BUT ITS EMPLOYMENT AS A PANACEA FOR DOMESTIC INFELICITY IS A DECIDED DEPARTURE FROM THE USUAL LEGAL PROCEDURE. A JAMESVILLE (WIS.) MAGISTRATE HAS JUST GRANTED AN INJUNCTION RESTRAINING A MAN FROM SPEAKING TO, VISITING OR IN ANY WAY COMMUNICATING WITH HER EITHER DIRECTLY OR THROUGH SERVANT, AGENT OR EMPLOYEE. THE COUNTRY HAS HAD MORE OR LESS "GOVERNMENT BY INJUNCTION" WITH VARYING RESULTS, BUT WHETHER MARITAL FIDELITY AND CONSTANCY CAN BE SECURED BY THIS PROCESS OF LAW IS AN OPEN QUESTION.

THOUGH THIS FINE COUNTRY REARING IS LOST TO THE CITY GIRL, THE HEALTHFUL PHYSICAL TRAINING OF HOUSEHOLD WORK REMAINS TO HER. ESPECIALLY IS SHE PRIVILEGED IN THE MATTER OF CLIMBING STAIRS, WHICH IS SO PROMOTIVE OF HEALTH IN HEART, LUNGS AND MUSCLES THAT RUNNING UP AND DOWN STAIRS MIGHT ALMOST BE RECOMMENDED OF ITSELF AS A MEANS TO PHYSICAL CULTURE.

PHYSICIANS ARE SOMEWHAT TO BLAME FOR SO MUCH PREACHING OF THE ILL EFFECTS OF CLIMBING STAIRS.

THESE ARE NONE ABSOLUTELY EXCEPT TO THE CONFIRMED INVALID, AND IT IS A GENUINE SIGN OF THE PROGRESS OF THE RACE THAT NO WOMAN EXCEPT THE MOST OUT OF DATE IS WILLING NOWADAYS TO ACKNOWLEDGE HERSELF AN INVALID. DELICATE FEMALES HAVE GONE OUT OF FASHION, FOR WHICH LET US BE THANKFUL.

I KNOW A FEW WOMEN WHO PRIDE THEMSELVES ON THEIR WEAK HEARTS, BUT NONE OF THEM DOES HER OWN HOUSEWORK. ONE EATS TOO MUCH, ANOTHER TAKES NO ACTIVE EXERCISE AT ALL, WHILE A THIRD LIES HERSELF SO TIGHTLY THAT SHE OUGHT TO BE SENTENCED TO PRISON FOR IT. NOT ONE OF THEM GIVES HER HEART ANY CHANCE.

A GOOD, STRENUEOUS COURSE OF DOMESTIC LABOR WOULD CURE EVERY ONE OF THESE DAMES OF HER WEAK HEART.

I KNOW OF ONE WOMAN WHO SAYS KITCHEN WORK MAKES HER ILL. WHEN SHE IS ABSENT FROM HER OWN HOUSE, DOING NOTHING BUT IDLE VISITING, SHE IS WELL, BUT THE DAY SHE ARRIVES HOME AND BEGINS HER DOMESTIC DUTIES SHE SAYS SHE GETS "KITCHEN BACKACHE."

BUT THIS SAME WOMAN ALSO DESPISES HOUSEWORK AND PROCLAIMS IT A "MEAN AND SORDID OCCUPATION." IT IS NOT. THE MEANNESS AND SORDIDNESS ARE IN THE WORKERS NOT IN THE OCCUPATION.

THESE ARE NOT A FEW YOUNG WOMEN, AND OLD ONES, TOO, WHO MAKE OF HOUSEHOLD LABOR A REALLY AESTHETIC EMPLOYMENT. THEY BEGIN THEIR TASKS WITH JOY, SINGING AS THEY GO. THEIR FINE, DELICATE SENSE OF CLEANLINESS AND ORDER REVELS IN THE POLISHED FLOORS, SHINING WINDOWS, CRYSTAL PURE GLASSWARE AND SNOWY LINENS, WHICH ARE MADE THUS BY THEIR OWN STRONG, SKILLFUL HANDS.

THESE MAKE OF HOUSEWORK A REAL FINE ART. AND THEIR HEALTH IS ALWAYS GOOD.

KATE SHARPE.

\$142,500.00

WILL BE GIVEN AWAY IN JAN. 1903

TO SMOKERS OF THE

BEST AND LARGEST SELLING BRANDS OF CIGARS IN THE WORLD!

CUBANOLA 5¢ GREMO 5¢

GEO. W. CHILDS 5¢ PREMIOS 5¢

FLORODORA 10¢ 3 for 10¢

EXPORTS 5¢

FONTELLA 5¢

WE GO 5¢ JACKSON SQUARE 5¢

HOW MANY CIGARS

will the United States collect Taxes on during the Month of December, 1902?

(Cigars bearing \$3.00 per thousand tax.)

\$142,500.00 will be given in January, 1903, to the persons whose estimates are nearest to the number of cigars on which \$3.00 tax per thousand is paid during the month of December, 1902, as shown by the total sales of stamps made by the United States Internal Revenue Department during December, 1902.

Distribution will be made as follows:

To the.....(1) person estimating the closest	\$5,000.00 in cash
To the.....2 persons whose estimates are next closest.....	(\$2,500.00 each)
To the.....5 persons whose estimates are next closest.....	(\$1,000.00 each)
To the.....10 persons whose estimates are next closest.....	(\$500.00 each)
To the.....20 persons whose estimates are next closest.....	(\$250.00 each)
To the.....25 persons whose estimates are next closest.....	(\$200.00 each)
To the.....50 persons whose estimates are next closest.....	(\$89.00 each)
To the.....100 persons whose estimates are next closest.....	(\$82.50 each)
To the.....2,000 persons whose estimates are next closest.....	(\$10.00 each)
To the.....3,000 persons whose estimates are next closest.....	(\$5.00 each)
To the 80,000 persons whose estimates are next closest.....	(\$1.25 each)
to each one box of 50 "Greco" Cigars (value \$2.50 per box).....	75,000.00
35,213 persons.....	\$142,500.00

Every 100 bands from above named cigars will entitle you to four estimates.

(One "Florodora" band counting as two bands from the 5 cent cigars mentioned; and no less than 100 bands will be received at any one time for estimates.)

Information which may be of value in making estimates—the number of Cigars now bearing \$3.00 Tax per thousand, for which Stamps were purchased, appears below:

In December, 1900, 467,002,208 Cigars.

In March, 1902, 516,569,027 Cigars.

"December, 1901, 470,312,170 "

"April, 1902, 516,435,163 "

"January, 1902, 496,983,717 "

"May, 1902, 523,035,907 "

"February, 1903, 445,495,483 "

In case of a tie in estimates, the amount offered will be divided equally among those entitled to it. Distribution of the awards will be made as soon after January 1st, 1903 as the figures are obtainable from the Internal Revenue Department of the United States for December.

Write your full name and Post Office Address plainly on package containing bands. The Postage or Express charges on your package must be fully prepaid, in order for your estimate to participate.

All estimates under this offer must be forwarded before December 1st, 1902, to the FLORODORA TAG COMPANY, Jersey City, N. J.

You do not lose the value of your bands. Receipts will be sent you for your bands, and these receipts will be just as good as the bands themselves in securing presents. One band from "Florodora," or two bands from any of the other Cigars mentioned above, will count in securing presents the same as one tag from "Star," "Horse Shoe," "Spear Head," "Standard Navy," "Old Punch and Honey," "J. T.," "Master Workman," "Fever Tick-Slick," "Jolly Tar," "Boct Jack," "Old Honesty," "Razor," or "Planet" Tobacco; or one "Sweet Caporal" Cigarette Box Front.

Send each estimate on a separate piece of paper, with your name and address plainly written on each. Blank forms for estimates will be mailed upon application.

Illustrated Catalogue of Presents for 1903 and 1904 will be ready for distribution about October 1st, 1902, and will be mailed on receipt of ten cents, or ten tobacco tags, or twenty cigar bands.

FRIDAY, AUGUST 29, 1902.

That Commander Pillsbury failed to capture and hold for six hours a port with six fathoms of water, with his "white squadron" of three slow ships, is not to be wondered at, and need not give the New England coast-dwellers the notion that a hostile fleet in time of actual war would not do better. The fact that he sneaked through the line of defence, with its numerous torpedo boats and other scouting craft, and got close to a six-fathom harbor before being discovered, is a hint of what might occur in actual war. The comparatively big fleet of Admiral Higginson had but about one hundred miles of coast to cover, and in that space are not many harbors having the depth of water mentioned. The commander of a hostile fleet would have some 1500 miles of coast line to work on, and would not confine his operations to a six-fathom harbor if a five-fathom one would answer his purpose.

The cholera is reported as raging along the eastern coast of Asia from Java to Japan, affecting almost every city along the coast and many places in the interior, and not confining its ravages to the natives, many Europeans falling victims to it. Even in Hong Kong, which is a British possession and from its situation and topography should be one of the healthiest places in the world, there were 523 cases of the disease and 511 deaths therewith from the outbreak up to August 6th—a most appalling rate of mortality—four out of six Europeans stricken with the pestilence having died. In Japan the disease is reported to be making fearful havoc. The superstitions and filthy habits of living of the Asiatics and their stubborn opposition to enlightened methods of medical treatment and sanitation, make European efforts to control and check any epidemic among them almost hopeless. That civilization and advanced civilized measures will in time master the cholera and the bubonic plague in their starting points, China and India, as they have already mastered and practically extinguished yellow fever in Cuba, cannot be doubted; but that time will come only when those regions are really civilized. The whole world has to pay the price of ignorance in any portion.

Governor Crane of Massachusetts has signed the papers for the extradition to North Carolina of Monroe Rogers, a young colored man under indictment for arson, it being charged that last February he set fire to a dwelling in Durham, N. C. Rogers was arrested on July 22d in Brockton, Mass., but his extradition has been vigorously opposed, the opposition to his return to North Carolina being largely based on the belief, expressed in the very plainest terms, that whether innocent or guilty of the crime laid to his charge, if returned to North Carolina he would be murdered—in other words lynched—without a trial. The papers of that state have indignantly denied that the colored man's return would mean his illegal murder by a mob instead of a legal and formal trial, and the governor has given assurance that there is no danger of anything of the kind occurring; and after long delay Gov. Crane has approved the requisition for his return. Whatever may have

been the conditions originally, we think the accused colored man need have little fear of mob law now. The wide notoriety given his case, and the persistent assertions that if returned to North Carolina for trial on a capital charge—the penalty for arson in North Carolina is death—he would be murdered instead of being given a legal trial in court, will make every official in the state, from the governor down, determined that he shall not be murdered; and any failure to give him the full protection of the law would cast lasting infamy on the state. And whatever may be the result of the extensive agitation in regard to this affair, to the person most immediately interested, it seems that it must be of general benefit to the people of North Carolina in calling their attention to the fact that "a good name is better than riches." No New England state would have the requisition of its governor for the return of an alleged criminal rejected or held up on the plea that the accused would be murdered without trial if returned.

SNAP-SHOTS.

Is Edward Arkissnson suffering from writer's cramp?

Mont Pelee is a very uncertain and undesirable neighbor.

Democratic campaign speeches contain lots of words, but few ideas.

President Roosevelt is destroying democratic issues in a really cruel manner.

Those social calls of the Italian king may be not quite so innocent as they appear.

The Filipinos are disgustingly contented with their lot, according to the anti-imperialistic view.

When the Shah of Persia returns to his own country, there will be another increase in the Persian tax rate.

Don Carlos still looks with longing eyes on the Spanish throne, though why anyone should want the Spanish throne is a mystery.

Grand Duke Boris of Russia cannot understand the freedom allowed the American press. It is a new experience to Boris not to be taken seriously.

The Doherty brothers are evidently good fellows and thorough sportsmen, but, clever as they are, they are not quite clever enough to beat America's best.

Some European countries are talking of intervention in the South American civil wars. If there is any intervening to be done, however, Uncle Sam will probably do it.

IT REQUIRES SCIENCE.

There is nothing in business that requires more science to do really well than advertising. It is easy to advise many things, but, on the whole, it must be studied as an art and entered into with great caution. That advertising pays is an axiom. The most successful merchants of today are immense advertisers. But they are original in method and shrewd and close in bargaining for position and place in the newspapers

SCHOOL GIRLS.

School girls are proverbially pretty. Fact is, it's a pretty age—that time in a girl's life when she has all the beauties of womanhood without the later lines of care and worry. But here and there even among school girls appear pale drawn faces—a dullness and lack of freshness which tells a plain story of thin blood.

Now this is not right. But Scott's Emulsion can make it right. Scott's Emulsion is what these pale girls need. Scott's Emulsion brings back the beauty to their faces because it is blood food.

SCOTT & BROWN, Chemists, 49 Pleasant St. Y.

ELEGANT PROMENADE COSTUME.

PROBABLY NO CONTEST.

Peaceable Settlement Of Fair Estate
is Expected.

Chicago, August 28.—A special to the Herald-Herald from San Francisco says there will be no contest over the estates of either Charles L. Fair or his wife by Mrs. Fair's relatives. Mrs. Harriet E. Nelson, mother of Mrs. Fair, on behalf of herself and her children, has relinquished for a sum in cash all claims to the estates of Fair or his wife. The attorneys interested would not disclose the amount paid, but it is to be \$50,000.

By the terms of the compact the estate of Charles L. Fair goes entirely to his relatives, Mrs. Herman Oerich and Mrs. W. K. Vanderbilt, Jr., who will also receive all of Mrs. Fair's property. The only possibility of any future trouble lies in the discovery of a late will of Charles Fair, leaving property to others than his kinsfolk and his wife. That such a will exists or did exist at one time is stated in positive terms by several of Fair's friends who find they have received no part of his millions.

Mrs. Nelson has announced her intention of making her home in California.

Mounting a Horse.

A careful bicyclist learns to mount from either side of the wheel, since the emergency may arise at any moment says the London Chronicle. One would think that the horseman would be equally careful to provide for possibilities and accustom himself to mounting indifferently from the off side and the near side. But if he were to venture to mount on the right side—which is the wrong side—in a hotel stable yard the hostler would probably demand the price of a gallon as the statutory fine, and the horse would collapse with surprise. What is the meaning of this convention? It appears in odd places. Not only does the trick horse in the circus canter from right to left, but the after dinner wine passes the same way. "The way of the sun" is the current explanation, which is absurd.

Now 50 Cent Size and the regular \$1.00 size bottles—less than a cent a dose.

Sample bottle—enough for trial, free by mail.

Catarrh, Hay Fever and Cold in Head. 50c.

PAIN IN THE BACK.

A Sure Sign of Kidney Trouble. Dr. Kennedy's Favorite Remedy will cure you.

Pain in the back is a never failing sign of kidney disease; another sure sign is the condition of the urine; if you have a pain in the back then look to the condition of your urine. Take a glass tumbler and fill it with urine; after it has stood 24 hours, if it has a sediment, if it is milky or cloudy, pale or discolored, stringyropy, your kidneys and bladder are in a dangerous condition and need immediate attention, or the consequences may prove fatal.

F. C. Wilcox of 539 New Britain ave., Hartford, Conn., says:

"I had a frightful pain in my back, the result of kidney trouble. My physician seemed powerless to relieve me. I determined to try Dr. David Kennedy's Favorite Remedy; it helped me wonderfully, and in a short time cured me completely."

Dr. David Kennedy's Favorite Remedy is the one medicine that really cures all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation. It is wonderful how it makes that pain in the back disappear, how it relieves the desire to urinate often, especially at night, and drives away that scalding pain in passing water and makes you well and strong.

It is for sale by all druggists in the

President Receives Heartfelt Greetings In Granite State.

Addresses The New Hampshire Veterans At The Weirs.

Passes The Night As The Guest Of Secretary Hay.

Newbury, N. H., August 28.—President Roosevelt arrived here at 6:30 tonight from Concord, and will pass the night as the guest of John Hay, secretary of state.

The secretary and his daughter met the president upon his arrival and joined with the assemblage in extending him a hearty welcome. The president delivered a brief address in which he thanked the people for their greeting. He then entered Secretary Hay's launch and sailed to the Hay's home on the shores of Lake Sunapee.

New Hampshire's arms are open today to receive the president. He arrived at the Weirs about noon where 30,000 people greeted him, and after taking lunch at the hotel he spoke to the veterans of the New Hampshire Veterans' association in their grove, who are there in their annual encampment.

About two o'clock the train left for Concord and reached that city at three, where it was greeted with a salute of twenty-one guns.

The president's party was met by Mayor Sargent and President Rollins of the Fair association, and the president was escorted to the fair grounds, where he delivered an address, before which he passed upon the race track and was driven to the stage upon which he was to speak. From 20,000 to 25,000 people were on the grounds and gave him a great ovation.

The train left for Newbury a few minutes after five o'clock.

TAKEN TO PRISON.

Murderer Best Will Soon Pay The Death Penalty.

Salem, Mass., August 28.—John C. Best the condemned murderer of George E. Bailey, who is to die in the electric chair during the week beginning September 7, was secretly taken from Salem jail to Charlestown early today. A large crowd had gathered at the railway station to see the murderer, but Best was taken to the North street crossing by Sheriff Johnson and Deputy Sheriff Kearney and put aboard the train before the crowd was aware that the party had left the jail. The train left Salem at 7:32 a. m., and arrived in Boston at 8:25.

BASEBALL.

The following is the result of the baseball games played yesterday:

National League.

Pittsburg 11, Chicago 3; at Pittsburg.

American League.

Chicago 4, Philadelphia 1, first game; Chicago 4, Philadelphia 5, second game; at Chicago.

Detroit 1, Boston 0; at Detroit.

Cleveland 5, Washington 3; at Cleveland.

St. Louis 1, Baltimore 0; at St. Louis.

New England League.

Concord 2, Dover 3; at Concord.

Lowell 2, Haverhill 3; at Lowell.

Manchester 1, Fall River 0; at Manchester.

Nashua 5, Lawrence 3; at Nashua.

MISS ROOSEVELT BEATEN.

Finished Fourth In Yacht Race At Dark Harbor.

Islesboro, Me., August 28.—In the yacht race at Dark Harbor, yesterday a number of young women sailed the boats. Miss Alice Roosevelt was at the helm of the knockabout *Raider*, a 21 footer. The *Raider* finished fourth. The *Peterky* owned by G. E. Kissel of New York and sailed by Miss Ethel Greenough of Cleveland, Ohio, won; the *Jilt* owned by W. O. Gay of Boston and sailed by Miss Betty Metcalf of New York was second and the *Idol*, owned by L. F. Lyman, was third. The *Raider* is owned by Dr. R. H. Derby of New York. The race was over a 20-mile course and

was sailed in a fresh southwest wind. The prize was a cup offered by Mr. Kissel, owner of the *Peterky*.

BURIED WITHOUT A CASKET.

Miss Martin's Body Removed From Coffin and Interred in a Winding Sheet.

Orono, N. J., August 27.—The most peculiar interment which ever took place in the Oranges was that of the body of Miss Mary Reinhard Martin, daughter of Mr. and Mrs. Frank E. Martin of Mountain avenue, Lewellyn Park, which was buried in Rosedale cemetery without a casket.

No reason for the interment of the body without either casket or box was vouchsafed at the home of the Martins. Mrs. Martin said that it was a matter which concerned only the family, and of which she did not care to talk.

The funeral was private. The only persons present at the interment aside from members of the family were the grave diggers.

When the hearse reached the cemetery the body of the young woman was removed from the casket in which it was brought from Apple-dore, Isles of Shoals, N. H., where she died on August 15, and were buried in nothing but a winding sheet. Miss Martin was about 20 years old. The family is well known in West Orange, and the home in Lewellyn Park is one of the finest there.

BATTLE IMMINENT.

President Castro Soon To Meet Revolutionary Forces.

Willemstad, Island of Curacao, August 28.—A battle between the army commanded by President Castro of Venezuela and the revolutionists of that republic is imminent.

The president is marching on Oenare where the advance guard of the government army is stationed. The revolutionists are only a few leagues distant.

All telephone and telegraph wires are cut.

Marietta Goes To Willemstad.

La Guaira, Venezuela, August 28.—The United States gunboat *Marietta* left here yesterday for Willemstad, where she will coal.

TO RETURN.

Miss Vivian Sartoris, President's Grandchild, Wedded Abroad to Frederick Roosevelt Scovel.

When Frederick Roosevelt Scovel led his bride, Miss Vivian Sartoris, to the altar at Coburg, Ex-President Grant's granddaughter was mated to President Roosevelt's cousin. The news of the engagement was a great surprise to society and the return of the young couple is eagerly awaited.

IN STRaits OF MALACCA.

Collision Between Steamers Results In Loss Of Twelve Lives.

Victoria, B. C., August 28.—A Singapore telegram of July 30 to the Chinese Mail says:

A collision occurred in the Straits of Malacca yesterday morning between the Dutch mail steamer *Prinz Alexander* and the British steamer *Ban Hin Guin*.

The *Prinz Alexander* sank and the first officer, the first engineer and 10 passengers and crew were drowned. Twenty passengers including the captain, were saved by the *Ban Hin Guin*.

The *Ban Hin Guin*, which was badly damaged, was towed into Singapore and beached.

STILL CRITICAL.

Kingston, Jamaica, August 28.—A steamer which reached here from Colon, Colombia today reported that the situation on the Isthmus was still critical.

FOR OVER SIXTY YEARS

Mr. Winslow's Root Beer has been made for over sixty years. It is all natural, free from alcohol and is the best remedy for diarrhoea, twenty-five cents a bottle.

FASTESt MILE.

Acadonda Breaks The Race Record Of The Year.

Paces A Mile In 2:02 At Grand Circuit Meet.

Wins Th: Free For All Event In Straight Heats.

Providence, R. I., August 28.—Records continued to be smashed in the grand circuit races here.

The second heat in the free for all race was made in 2:02 flat and was the fastest mile made in a race this year. The last half was in one minute.

Anaconda beat Prince Albert in two straight heats in 2:03½ and 2:02.

The \$10,000 Roger Williams 2:14 class pace was won by Nutbear, best time 2:03½.

The 2:22 class trot, purse \$10,000, went to William Ted in three straight, best time 2:11½.

The 2:14 class pace, purse \$2500, was captured by Leanda, best time 2:05½.

The first for alipace, purse \$1500 was won by Anaconda. Prince Alert second. Comer third, best time 2:02.

Major Delmar took the 2:10 class trot, purse \$1500, best time 2:09¾.

At Concord Fair.

Concord, August 28.—The harness races at Concord fair today were interesting.

The 2:22 class trot, purse \$400 was won by Jack Span Jr., best time 2:20½.

The 2:18 pace, purse \$400 went to Boratite, best time 2:18½.

ACCIDENT SAVES LIVES.

Derailing Of A Train Prevents It From Running Into An Open Draw.

Saybrook, Conn., August 28.—A derail placed at the end of the Connecticut river bridge on the shore line division of the New York, New Haven & Hartford railroad, saved the lives of the crew of an east bound freight early this morning. The drawbridge was open for the passage of the Hartford and New York steamer. It is said the engineer disregarded the signals, but the train was prevented from plunging into the river by the derail.

The engine and 11 cars loaded with beef, eggs and melons went over a 15-foot embankment at a point 2000 feet from the bridge and were badly wrecked, blocking traffic for five hours. The trainmen jumped and escaped unharmed.

ARMY PREPARING.

Officers Confident Of Winning War Game With Navy.

Fisher's Island, N. Y., August 28.—The troops at Fort Wright are gradually making themselves familiar with the armament, and this afternoon operated the mortars for three hours. Tonight signals were being exchanged with New London.

Army Expects To Win.

New London, Conn., August 28.—Tomorrow night, the first real move in the game of war between the army and navy will be made, and the army officers of this vicinity believe they will score the victory of points and be declared the winners.

FLOODS IN INDIA.

Several Hundred People Have Perished In Landslides.

Calcutta, August 28.—A great disaster is reported from the native state of Nepal. Two rivers have overflowed their banks and caused serious landslides. Several hundred persons were killed.

RANDOM GOSSIP.

Attorney J. O. Ross, formerly of this city, but now located in Epping, came to Portsmouth the other day, and in the course of a brief chat expressed the greatest confidence in the industrial future of that attractive town. Mr. Ross has become very popular and influential since he hung out his shingle there, and according to reliable reports, comes very near being the commercial king of the town. He has organized a board of trade, induced one or two new industries to locate there, and is working early and late to advance the town's interests. Mr.

Ross is an able lawyer and a good fellow, and his many friends in this city will be glad to learn of his success.

The members of the Amherst and Seacoast unit in W. I., wear in the Labor day parade in very neat and attractive uniforms. They will wear white gaiters, black trousers, white coats and black skull caps, and every man will carry a red umbrella. The effect produced by the umbrellas must be a rather startling one, but the marchers and servers say that it is a very pleasing one, nevertheless, and that their uniforms will be the equal in attractiveness of those worn by any of the parades.

A weather beaten jack tar, who had evidently been drinking, appeared at the Music hall box office the other evening, produced one lone dime and asked for a twenty cent seat. Naturally, his request was refused and a ten cent ticket tendered him instead but the old sailor would have none of it. He wanted a twenty cent seat, and persisted in his efforts to secure it at half price. Finally, however, he was able to understand that a twenty cent seat could not be sold to him for a dime, and spying two Japs, also sailors, with whom he was evidently acquainted, he implored them then on the basis of another dime. The four being granted, the old sailor again appeared at the box office window, and again asked for a twenty cent seat. The man behind the window speedily discovered, however, that the canny Japs had palmed off upon the poor old sailor a plugged ten cent piece, but his despair upon learning of the trick which had been played upon him was so tragic, that the desired ticket was given to him in return for the plugged dime and his own good one, and the old salt enjoyed the play from a twenty cent seat.

The captain of the steamer *Merryconeg* didn't use to have much faith in newspaper advertising, but he's got lots of it now. He made arrangements a little while ago for a moonlight excursion to the Shoals, but neglected to insert the usual notices in the local papers. As a consequence, only about half a dozen people appeared at the wharf on the night of the excursion and the trip was, therefore, abandoned. The next time the captain of the *Merryconeg* plans an excursion, he will be likely to let the people know about it through the columns of the newspapers.

The steam yacht belonging to Mrs. George W. Armstrong, widow of George W. Armstrong founder of the Armstrong railroad restaurants, which has been undergoing slight repairs here, is said to be one of most elaborately furnished crafts which ever came into Portsmouth harbor. The yacht is not a great deal to look at from the exterior, but a gentleman who had the privilege of boarding it and who is an authority on such matters, says that the interior furnishings are magnificent and superior to anything he has ever seen.

Charles Marseilles has come out in a long article in the Exeter News-Letter, in support of General Gale's gubernatorial candidacy. Mr. Marseilles is always enthusiastic in his advocacy of any cause in which he is interested, and he has long been one of General Gale's most ardent supporters. The News-Letter article is a strong bit of political literature.

A unique distinction was conferred upon Kittery Junction on Thursday. President Roosevelt stopped there nearly ten minutes, and gave Portsmouth the go-by. Kittery Junction should hereafter be marked on the map with red ink.

Greenacres has enjoyed the most prosperous season in its entire history, this year. The lectures and concerts given there nearly every day during the summer are very interesting, and have always attracted many Portsmouth people, but the difficulty in reaching the place has deterred many from going. This difficulty has been overcome by the completion of the electric road to Greenacres, and on some days almost everybody in Portsmouth who could possibly get away has taken advantage of the opportunity provided to secure a nice musical and literary treat.

Golf continues to be a popular method of diversion in this vicinity, although the revival of interest in tennis, caused by the coming of the English cracks to this country, has led many former devotees of the game to take it up once more. Tennis is a fast and exciting game, and one which calls for great athletic ability, and there was no good reason why it should have declined in popular favor.

BARRY'S GREAT RECORD.

Washington, August 28.—The torpedo boat destroyer Barry which had its official standardizing trial off Massachusetts yesterday made 28.12 knots

FIVE DROWNED.

An Appalling Accident Near Battle Creek, Michigan.

Boat Containing Pleasure Party Run Down By Steamer.

The Victims Were Employees Of Battle Creek Sanitarium.

Battle Creek, Mich., August 28.—Five employees of the Battle Creek Sanitarium, nurses, probationers and stenographers, were drowned at Lake Gorilla last evening as the result of a collision between the steamer Welcome and a rowboat containing a party of young people. The five girls had been out for a row about the lake with a young man and were returning to the sanitarium villa. The Welcome was starting out for her last trip. The young man was at the oars and he became bewildered, and the steamer struck the boat broadside on. The owned were:

MR. BENNETT, Dallas, Tex.
FANNIE BRADY, Battle Creek.
MABEL RICARD, Traverse City, Mich.
ELLA DORSEY, Allegheny, Pa.
FANNIE WILLIS, North Toronto, Ont.

Carrie Fyock of Johnstown, Pa., clinging to the boat and was the only one saved. Miss Brady and Miss Richard were evidently struck by the steamer and instantly killed, for they were found floating. The others are in 20 feet of water and the lake is being dragged for their bodies.

GONE TO CONCORD.

Sheriff Parker Takes Martin A. Glass To State Hospital For Insane.

Sheriff George W. Parker went to Concord this morning, having in custody Martin A. Glass, who is charged with the murder of his brother, George W. Glass, on the night of June 26 last. The murderer was taken to Concord where he will be confined at the state hospital for the insane by order of the court under the statute passed at the last legislature whereby a person who commits a crime and a plea of insanity is made the person is taken to the insane asylum to be examined by the experts of that institution. It is understood that an indictment will be asked for before the grand jury at the coming term of the superior court and in case the murderer is found to be sane by the experts at the state hospital he will be brought back here and given a trial.

In case he is found to be insane the court will then make a further order in his case which will probably be confinement in the asylum for insane people. Glass was accompanied to Concord by his brother-in-law. There was a big crowd of people at the depot eager to get a view of Glass as he was taken from the carriage to the train.—Dover Democrat.

ABENAQUI TOURNAMENT OPENS.

The annual golf tournament under the auspices of the Abenaqui golf club, open to all amateur golf players in New England commenced on Wednesday afternoon, there being forty-six entries, including some of the best representatives of leading New England clubs, including Yale and Harvard. Wednesday's play was of 18 holes to qualify, with the following result:

C. F. Spalding.....\$2
E. Cobb\$3
S. T. Chase\$4
Rockwell King\$4
R. Parker\$1
W. D. Vanderpool\$5
F. Sulloway\$6

CHANCE TO SPECULATE

Guessing Contest For Navy Yard Employees Only.

You Win One You Get A Ten Dollar Gold Piece.

Year's Subscription To The Herald Is Also Offered.

The Herald will give a ten-dollar gold piece to the navy yard employee who names the actual date, or the nearest to it, when the *Crusader* is reported ready to go into commission, by the commandant of the yard.

One year's subscription to the Herald will be given to the navy yard employee who comes nearest to the date upon which the *Raleigh* actually goes into commission.

Should one or more persons name the

same with gas and currents and of little arrangements that fit upon a burner, what woman cannot heat water, and how easy it is to see to it some of the best tea extract that comes well prepared or put in some of the preparations of malt, or wheat or milk.

Best of all, though, is hot milk, and a physician who doctors wrinkles advises the heating of a cup of milk to the boiling point, without letting it actually boil. To this he adds an egg, very lightly beaten, and set it in so slow that it will not curdle. A dash of salt completes this beauty nightcap.—*St. Louis Republic*.

GOING OUT OF VOGUE.

Alteration in advertising is going out of vogue. There are some advertisers who adhere to it, possibly because they have grown accustomed to it. But it is a weak form of mechanical writing. It is equally true of puns. The only adverse criticism that has been passed upon Shakespeare's pen is that he yielded to a prevailing taste in the matter of puns, and the only weaknesses in his writings are where he uses them. What one wants

PROGRESSIVE NEW ZEALAND

(Special Correspondence)

Christchurch, New Zealand, Aug. 15.

Once more the government of this most interesting and most progressive of British colonies is demonstrating the fact that it is peculiarly devoted to the interests of the masses, but this time the object is to assist strangers and tourists in the country rather than the New Zealanders themselves.

Under the tutelage of T. E. Donne, secretary of the department of commerce and industries, the government is actively employed in the establishment of a complete tourist agency department, with offices throughout the country. Here travelers can make themselves at home, can write letters, cable to the outside world, receive their mail, leave packages and even be provided with developing rooms for changing and working on photographic plates, a boon that will be greatly appreciated in these days by camera laden tourists.

Of course it is certain that this scheme of the government will indirectly rebound to the benefit of the people of the country, for New Zealand will be made more attractive to the tourists, who will make longer visits than under the ordinary conditions of travel and will therefore leave more money in the country. The result will also be that more people will be attracted to the colony than in the past, and the probability is that a number of them will remain here, thus adding to the wealth and population. The feeling is that too little is known in the outer world of the wonders of the country, and this plan is undertaken in the hope that it will attract "all the world and his wife" to visit New Zealand and see for themselves the progress that the colony is making.

It is not generally known that New Zealand has many regulations in its governmental affairs that place it many years ahead of other nations, and all these regulations have the sole object of benefiting the people, not the few.

Taxes can be paid in any post-office, and life insurance and accident insurance premiums are payable at the same place. By act of parliament the postmaster or postmistress can marry couples. Postal savings banks are also a popular and important feature of the system. It is said that today there are no less than 212,346 separate depositors in these postal banks out of a population of \$83,000,000, with a total of \$32,000,000 on deposit. These deposits all receive interest at the rate of 3 per cent.

Government ownership of railways, telephones and telegraphs is an established fact in New Zealand. The government has also instituted, owns and operates life and accident insurance companies and labor bureaus. Here strikes are unknown, labor grievances all being passed on by an arbitration court composed of the judges of the supreme court, one representative of the manufacturers and one representative of the organized labor interests. The leading features of the arbitration law of New Zealand are well worth noting as showing what can be accomplished by simple legal procedure.

The law applies only to industries in which there are trades unions. It does not prevent private conciliation in writing is the best word, or words for conveyance of his meaning. Search for words beginning with the same letter as words before them is likely to result in selection of those that do not best convey one's meaning. Puns to be guilty of the offense here charged against them, are always puny. They are evidence of weakness and never of strength.—Printer's ink.

HE APPEALED.

Fred Herrick, a millionaire lumber manufacturer, of Birmingham, Ala., has appealed from a one-cent fine imposed in the police court on a charge of refusing to pay a licensed restaurant bill. Mr. Herrick went into the Morris Hotel late and ordered a lunch with cold hash. The hash was brought to him with dressing, and he refused to pay fifteen cents for it. He was arrested and locked up. The police judge fined him one cent, and Herrick says he will appeal to the supreme court.

REPUBLICAN RALLY IN KITTERY.

There will be a republican rally in Treffethen's hall, Kittery, this Friday evening, August 29, at 7:30 o'clock. Addresses will be made by James O. Lyford of Boston and Judge B. F. Cleaves of Biddeford. Me. Good music will be furnished.

PUNISHMENT.

Social progress has done away with a great many forms of punishment once administered under the laws of enlightened people. But nature never changes or modifies her penalties. She still has the same punishment for the man who neglects or abuses his stomach as she had in the far off days "when Adam delved and Eve span."

The physical discomfort, dullness, sluggishness, irritability, nervousness and sleeplessness which are visited upon the man who eats carelessly or irregularly have been from the beginning the evidences of disease of the stomach and its associated organs of digestion and nutrition.

Dr. Pierce's Golden Medical Discovery cures the diseased stomach and enables the perfect digestion and assimilation of food, so that the dullness, irritability, nervousness and sleeplessness which result from inattention are cured also.

It was the N.M. Wardwell of Linwood, Liverpool, who writes: "Had the doctor and he tried up the fever right out, took drugs, etc., to cure me, he would have cured me clean, and then he gave up the rest. I got so weak with it and had piles so badly I could not sit down, and did sit up. Was not able to eat for three months. Then I would never be well again if I had picked anyone of Dr. Pierce's Medicine. Took it day and night, and it has cured me now, and I am well again." Dr. Pierce's Golden Medical Discovery is the medicine that is good for me.

You are summoned at the first call of the stomach, so just take it. It is the best remedy I ever had. I took two bottles of it next time I took sick, and I am well again. I haven't been bothered with diarrhoea since.

Dr. Pierce's Pellets cure biliousness.

This question of a nightcap is one that no woman should ignore. The practice of going to sleep on an empty stomach is a poor one. Nothing brings the blues quicker, nothing so deepens them, nothing so soon makes a bag under the eyes, nothing more surely brings the drawn look about the eyes than the habit of going to sleep when hungry.

It is always easy to get something to eat at night, no matter how late it may be. In these days of chafing dishes

another matter of great economic interest is the question of ownership of land. The New Zealand government has no love for large land holders and is doing all it can to have the country divided up into small farms. They especially dislike absentee landlords, and if the owner of property lives outside of the country, he has to pay 20 per cent more taxes than resident owners.

Large land holders are deemed a social pest, and everything is done to force them to sell out and leave the country. On the other hand, small farmers come in for tender cultivation, and every means is employed to make their life worth living.

The farmer need only bring his poultry to the government depots, and there it will be plucked, dressed, frozen and shipped to England by the federal

England's Ovation to Boer Generals.
Such a splendid and spontaneous ovation as England has lately given Generals De Wet, Botha and Delarey is surely rare in history, the generals of a beaten nation passing freely within a few months of their surrender among their conquerors and everywhere greeted with courtesies from the government and cheers from the populace.

It is hard to believe that it is the same English people that only two years ago had no word too bitter and contumacious for the defenders of the veldt. One may feel sure that the warmth of the Boer leaders' reception rests upon something more substantial than the mere good nature which victory brings, particularly as it is little more than nominal victory. If only the joy of success were involved, the visit of the Boer generals would be merely the final adornment of a triumph. Such an idea, it is safe to say, occurred to no Englishman, from king to costermonger, and the spontaneous tribute of admiration to these brave foes does much to condone the former bitterness.

It is said that King Edward upon receiving the generals warmly commanded the humanity with which the Boers had treated wounded British prisoners. But this is not a matter of record, though, whatever may have been the terms of the meeting on board the royal yacht, it is certain that the dignified, manly and loyal attitude of the Boer chieftains will remove any lingering doubts as to the temper of their people, while the frank expression of admiration of the English people for a foe whose worth they have dearly learned will go far to convince the Boers that they may count upon the generosity of their conquerors. Altogether England's reception of the Boer generals is a happy augury for peace in South Africa.

The Right to Organize.

Organized labor has recently won a significant victory in New Haven, Conn., where the employees of the street car lines struck because of the discharge of fellow workmen for aiding in the formation of a union.

"Within a few days," writes a New Haven correspondent of the *Outlook*, "nearly two dozen men, some of whom were among the oldest and most popular servants of the road, were dismissed 'for the benefit of the service.' It was noticed, however, that they were men who had in quiet ways favored the organization of a union. Each morning some half dozen were dropped until the employees in a body took the bull by the horns and organized themselves into a union. Their first demands were for the reinstatement of their unfortunate comrades and their right to treat with the company collectively. It was the refusal of the company to consider these demands that precipitated the strike. Public sympathy came promptly and overwhelmingly to the support of the strikers. Mass meetings of merchants, of business men and of citizens in general were held, and strong editorials were published in the daily prints re-enforcing the demands of the men. To these influences were added the vigorous efforts of many of the stockholders of the company, while the aldermen began to consider the proposal of municipal ownership. The result was a speedy victory for the strikers. The company took back twenty-one of the discharged men and consented in the future to treat with its men as a body."

The significant thing about the incident was the absolute unanimity of New Haven public sentiment on behalf of the strikers when the sole question at issue was their right to organize, which is quite at variance with the attitude of some employing corporations.

President Truesdale of the D. L. & W., one of the anthracite coal carrying railroads, speaking of the strike, says that the "situation appears eminently satisfactory." It may be satisfactory to the mine owners and the coal roads, but the people who are paying \$8 and \$10 a ton for fuel, with the prospect of paying \$12 and \$14 for it before the coming winter is half over, are not so easily satisfied.

It is gratifying to learn from authorities that the sanitary conditions of Havanna are of the best. The charge that the Cubans were neglecting the good work begun and carried on under the direction of the United States army is happily unfounded.

Santos-Dumont is somewhat shrewd than the people who go over Niagara falls in barrels, hoping to get rich through the notoriety thus acquired. He insists on getting the money first.

The worst bigots of all are those who believe that all men and women who do not agree with them are narrow minded victims of strong prejudices.

Now that General Lew Wallace is the hero of an automobile accident which we look for a revision of the chart race?

The Boer generals evidently wished to give the British a show for their money.

Deliver me from the whiner and
slumper!

-

Miss Eleanor M. Thomas, a young
society lady, formed an automobile
party of friends and with her own
hands steered her machine on a trip
from New York to Boston and return.It is the fad among fashionable ladies
to possess automobiles and guide them
themselves. Well, they cannot smash
up and run over people and things any
more frequently or effectually than
men motorists now do. That is one sat-
isfaction.

-

The Boston hotel for women was
opened somewhat ahead of the date
fixed. It has all the conveniences of a
first class hotel, and to permanent resi-
dents it gives room and board, use of
library and reading room and a weekly
concert ticket for from \$3.50 to \$6.50
a week. Its name is the Franklin
Square House. It is managed by Mrs. Susan B. Bangs being super-
intendent and Mrs. Harriet A. Rob-
erts stewardess.

-

Here is a good little story which
proves that women take an interest in
politics where they have the opportunity:
The women in Topeka did not
approve a certain candidate for nomination
as city councilman. They resolved to defeat him. They organized a united, harmonious, secret movement
against him and in favor of another
man who suited them better. At the
primary the women's candidate was
surprised to find himself nominated,
while the other, supposed to be the
more popular, was nowhere.

-

The secret of getting your own way
is to be silent and tactful. Gather
your mental force inside of you and
launch it in few words. Never waste
it in storm and bluster or babyish
sniveling and tears.

-

A leading company of model tem-
pment house builders and owners has
as its renting agent and collector a
young lady, Miss Blanche Geary. She is
so successful that out of a rent roll of
\$50,000 she loses through bad tenants
scarcely more than \$50 a year. One
reason for her success is that her
housekeeper instinct enables her to
maintain without trouble a close watch
on janitors and plumbers. Her most
grievous trouble is with scrubwomen
and engineers who furnish the heat
and the hot water supply. These people
seem not sufficiently mentally de-
veloped either to know their duty or
to do it.

Words
And Works

AN OUTDOOR ROOM.

How a Comfortable Hot Weather
Apartment May Be Made.A summer room is a great comfort
during August and September. It may
be erected in the midst of a splendid
garden or in a city back yard. It makes
no difference.In the first place, four poles or pieces
of scathing are fixed in the ground
where the room corners are to be. The
tops of these are connected by four
other pieces of wood, which should be
screwed in position so at the end of the
summer the structure may be taken
to pieces. This is all the woodwork
required. Indian or Chinese matting
is used to cover the frame. This is lined
on the inner side with plain colored
cambrie, preferably green. The matting
is secured to the framework by
tapes, so that if desired the sides may
be raised or lowered. A pole is placed
in the center of the room in order to

OF CHINESE MATTING.

raise the roof that the rain may run
off easily. The wall matting at its
lower edge is tied to pegs driven into
the ground.Now, as to the furnishing, the entrance
may be hidden by a drapery on a
bamboo rod. Folds of cheap figured
cretonne will hide the inner framework.
The floor should be the natural grass.
Two or three lounging chairs and a table
are all the furniture necessary.
These are of bamboo or wicker.
A hammock is a great comfort, but as
it is not safe to swing it from the
room posts it should be secured to a
portable support consisting of two A
shaped pieces joined together by two
crosspieces one above the other. The
highest crosspiece is secured to the
apexes of the two A's, and the lower
has its ends secured to the centers of
the crossbars of the A shaped pieces.A room of this sort may be con-
structed also of canework, and the
only things needed are a wooden frame
bored with a quantity of small holes
just large enough to take the cane
freely, a number of tiny pegs to fit the
holes and a quantity of split cane,
which may be obtained from a chair-
maker.

The
GRACIOUS
WOMAN

TONGUE TRACTION.

Dr. Laborde's Method of Reviving
the Asphyxiated.It has long been known that rhyth-
matic traction of the tongue is one of
the most efficient means for the resusci-
tation of persons who have been
drowned, says a writer in the Scientific
American. Dr. Laborde of Paris, who
has carried on extensive investigations
on the effect of tongue traction as a
means of resuscitation, maintains that
often, although the drowning has ap-
parently ceased to live externally, life
still lives internally—that is to say, life
is still latent, and as long as there is
latent life there is still hope of saving
an asphyxiated or drowned person.
The function which it is most necessary
to revive is the respiratory.Experimenting upon dogs Dr. La-
borde found that two or three hours
after apparent death had set in it was

THE ATTRACTIVE VEIL. | TOOL THAT ALMOST TALKS! Yet its complicated mechanism can be tended by a girl.

The most highly developed of ma-
chine tools is the automatic screw ma-
chine and for many another con-
trivance for saving labor, its home is
New England. It is a development of
the ordinary steel working lathe, the
lathe being stepped up making the man
the operator instead of the workman.
The tool which does the work can run
without human hands.In making screws, nuts, bolts, studs
and other small pieces that must be
turned, drilled or threaded for watches,
clocks, typewriters, electrical instruments
and other mechanisms all the
operator has to do is to feed the
"stock"—a long thin rod of steel or
brass—to the machine. The feeding
mechanism carries the rod slowly for-
ward into the field of action. The tur-
ret advances a foot puts its first tool at
work on the end of the rod. When this
tool has done its task, the turret withdraws it, turns and advances a second
tool into action. Each cutting tool
around the turret has its distinct work
to perform—one cutting a thread, an-
other shaping a head, another putting
on a point, another drilling a hole, still
another putting on knurling. The tur-
ret automatically brings each of per-
haps six tools into action, and when
the work is finished the completed
screw drops into a pan, while the
"stock" is automatically fed forward
to begin the complex operation again.
A stream of machine oil pours continu-
ously on the work to carry away the
heat and the little metal cuttings col-
lect in a heap under the machine.Hour after hour this wonderful autom-
aton goes through its cycle of opera-
tions, the turret clicking every mo-
ment as it brings a new tool forward.
Small brass pieces, on which but one
tool cuts, are dropped at the rate of four
or five a second. Large screws of com-
plicated design upon which a whole
turretful of tools must work are cut
from a steel rod at the rate of one or
two a minute. So perfectly are these
screw machines constructed that an un-
skilled workman can operate a row of
them. All he is required to do is to keep
them fed with "stock." In some shops
girls tend the machines.—Success.

PICKINGS FROM FICTION.

The time for repentance is in ad-
vance of the crime.—"Abroad With the
Jimmies."It is less futile to consider our past
than to predict our future.—"Philip
Longstreth."If a man admires a girl at all, he will
want to marry her as long as she treats
him badly.—"Myra of the Pines."Well it is to be able to read runes,
but better yet it is to know what the
Lord has written in men's eyes.—"The
Thrall of Leif the Lucky."People are seldom man and wife half
their lives without wishing to impart
their sufferings as well as their plea-
sures to each other.—"The Kentons."Tears and laughter well compounded
make the sweetest joy, grief and joy
the truest happiness, happiness and
pain the grandest soul.—"Dorothy Ver-
non of Haddon Hall."Be she right or wrong, a woman will
not permit a man to question her moti-
vations. Being a woman is of itself a
good and sufficient reason for what-
ever she may do or say.—"Graystone.""Ets er long lane that ain't got no
turnin' whatmever, an' I've noticed
this all my life—the longer she is be-
fore she does turn the bigger turn she
makes when she finally gits to it."—
